SURAJ YADAV

Mumbai, Maharashtra | imsurajyadav044@gmail.com | [portfolio-link] | LinkedIn | GitHub

Full Stack Developer with hands-on experience building and deploying real-world web applications. Proficient in the MERN stack, with practical exposure to cloud deployment, DNS configuration, and production debugging. Passionate about solving real-world problems and delivering scalable solutions.

Experience

NUVEXA INDIA SOLUTIONS LLP Navi Mumbai, Maharashtra

Web Developer Intern Nov 2025 – Apr 2026

- Developed and deployed 5+ production-ready web applications using React, Tailwind CSS, and Vite.
- Developed a REST API-based backend project for handling contact form submissions using Node.js, Express, and MongoDB, with email notifications using Nodemailer.
- Managed full deployment lifecycle including DNS configuration (A, MX, TXT records) and domain setup via Namecheap and GoDaddy.
- Configured business email solutions using Google Workspace, Titan Mail, and Hostinger Webmail.

Projects

Contact Mail Service API | Node.js, Express, MongoDB

- Developed a REST API-based backend project to collect, validate, and store contact form data using Node.js, Express, and MongoDB.
- Integrated Nodemailer and Forminit to send automated email notifications, with fallback storage in the database on failure.
- Implemented basic security and validation using Helmet, CORS, express-rate-limit, and express-validator.

Sticky Notes | React.js, Redux.js, Express.js, MongoDB, Redis

- Built a full-stack Sticky Notes app (React.js, Redux Toolkit, Tailwind CSS, Vite + Express.js, MongoDB, Redis) that lets users create, edit, delete and pin notes with a responsive UI and smooth GSAP animations.
- Implemented RESTful APIs, with Mongoose models, input validation and CORS for secure frontend-backend communication.
- Optimized read performance by adding Redis caching on frequently accessed endpoints and structured the backend with modular controllers/middleware for maintainability and easy scaling.

Skills

Frontend: HTML, CSS, JavaScript, React.js, Redux Toolkit, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, Redis, REST APIs
Tools & DevOps: Git, GitHub, Vercel, Hostinger, DNS Configuration, Domain Management, Google Workspace Admin

Education

University of Mumbai – Centre of Distance and Open Learning (CDOE) Mumbai, Maharashtra

Bachelor of Science in Computer Science (BSc. CS) *currently pursuing*
